Konten harus mampu menggabungkan:

FAKTA  
+  
MANUSIA  
+  
TEMPAT  
+

### 3. Editorial Philosophy

Prinsip utama:

**Cerita harus membuat pembaca memahami kehidupan Desa Tembong, bukan sekadar mengetahui informasinya.**

Contoh:

Kurang kuat:

Masyarakat Desa Tembong memproduksi emping melinjo.

Lebih kuat:

Di sejumlah rumah di Desa Tembong, melinjo masih diolah secara manual menjadi emping. Proses tersebut menjadi bagian dari aktivitas ekonomi keluarga dan keterampilan yang diwariskan dari generasi sebelumnya.

Perbedaan utamanya:

- ada manusia;
- ada konteks;
- ada proses;
- ada makna.

---

Emping Tembong masih banyak diproduksi secara manual oleh pengrajin lokal menggunakan melinjo sebagai bahan utama.

---

## 13. Avoid Unsupported Superlatives

Do not use:

terbaik  
nomor satu  
paling terkenal  
terbesar  
terindah  
unggulan nasional  
satu-satunya

unless supported by verifiable evidence.

---

## 14. Storytelling Framework

Recommended framework:

## 19. Story Subject

Every story should have a clear subject.

Avoid stories where no one or nothing is clearly at the center.

---

## 20. Interview-Based Writing

If a story comes from an interview:

Do not simply turn:

Question  
Answer  
Question  
Answer

into the published article.

Instead synthesize into narrative.

Interview is raw material.

Story is editorial output.

---

## 21. Quotes

Use quotes when they add:

- emotion;
- perspective;
- personality;
- lived experience.

Do not use quotes merely to repeat facts already stated.

Weak:

“Saya sudah membuat emping sejak 2010,” katanya.

Possible but factual.

Stronger:

“Kalau melinjonya sedang bagus, kami bisa bekerja dari pagi sampai sore,” ujarnya.

---

## 22. Quote Integrity

Never:

- invent quotes;
- alter meaning;
- combine unrelated statements into one quote;
- make a resident sound more dramatic than they were.

Minor grammar cleaning is allowed if meaning remains unchanged.

---

## 23. Quote Attribution

Preferred:

“...” ujar Ibu [...].

or:

Menurut Ibu [...], “...”

For repeated attribution, variation is allowed.

Avoid excessive:

beliau menjelaskan  
beliau menuturkan

in every paragraph.

---

## 24. Names

Use real names only with permission.

Preferred first introduction:

Ibu Siti Aminah, pengrajin emping di Kampung [...].

---

## 25. Unknown or Unverified Names

Never invent names.

Use:

[Nama pengrajin]

during drafting.

---

## 26. Product Story Philosophy

CARITA TEMBONG does not treat a product purely as a commodity.

Product story should answer:

How is it made?  
Why does it matter locally?  
How can someone obtain it?

---

## 27. Product Copy Structure

---

## 29. Pricing Copy

If fixed:

If variable:

Harga mulai dari Rp35.000.

If unstable:

Hubungi mitra pemasaran untuk informasi harga terbaru.

Never publish assumed price.

---

## 30. Marketing Partner Copy

Preferred public terminology:

**Kontak Pemesanan**

---

## 34. Destination Status Language

Use:

Bisa Dikunjungi

Do not imply readiness when infrastructure is incomplete.

Always distinguish:

program description  
claimed result  
verified result  
recognition

---

## 41. KAJEDAK

When explaining KAJEDAK:

Use factual language.

Example:

```

Never display numbers without context.

For narrative:

sekitar 3.200 penduduk

peluang  
ruang pengembangan  
potensi  
masih dapat diperkuat

Avoid presenting every problem as guaranteed business opportunity.

---

## 56. Potensi & Tantangan Format

Kabar Lainnya  
Kenali Pengrajinnya

---

## 77. SEO Writing

If factual errors are identified:

Correct promptly.

For material corrections, consider adding:

Diperbarui pada [date].

---

## 84. AI-Assisted Writing

AI may be used to:

---

## 85. AI Draft Placeholder Rules

When information is unavailable use explicit placeholders:

```

[Tahun mulai usaha]  
[Nama kampung]
```

[Data belum diverifikasi]  
[Quote wawancara]

Never fill gaps with plausible-looking information.

---

## 86. Interview Philosophy

Interview should prioritize:

stories rather than questionnaires.

Ask open questions.

Kenapa begitu?

Sejak kapan?

## 88. Observation Notes

For community stories:

Prioritize:

people doing the work

before:

official speeches

unless the event itself is administrative.

---

## 109. Cultural Authenticity

Before describing a practice as:

```
tradisi Sunda  
adat  
warisan turun-temurun
